

HEALTHY BLOOD PRESSURE.

HEALTHY BRAIN.

It is normal for your brain to change as you get older. Having healthy blood pressure can lower your risk for memory loss and confusion. Follow your healthcare provider's guidance to manage your blood pressure.

Monitor your blood pressure

Eat healthy meals

Be physically active

Maintain a healthy weight

Do not use tobacco products

Limit alcoholic beverages

Practice good sleep habits

Manage stress

Take medications as prescribed

NATIONAL ASSOCIATION OF
CHRONIC DISEASE DIRECTORS
Promoting Health. Preventing Disease.

The Integrating Alzheimer's Messages into Chronic Disease Programs project is supported by the Centers for Disease Control and Prevention of the U.S. Department of Health and Human Services (HHS) as part of a financial assistance award totaling \$200,000 with 100 percent funded by CDC/HHS. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by CDC/HHS, or the U.S. Government.
