

**Triple Threat: Owning Powerful Metrics
Alongside Our Physician & Nursing
Colleagues**

Megan E. Fulton, DMSc, PA-C
System Executive Director, APP Practice, MUSC
Assistant Professor, MUSC PA Program
SCAPA Legislative Chair
CEO, Emerge Health Co., LLC

Disclosures

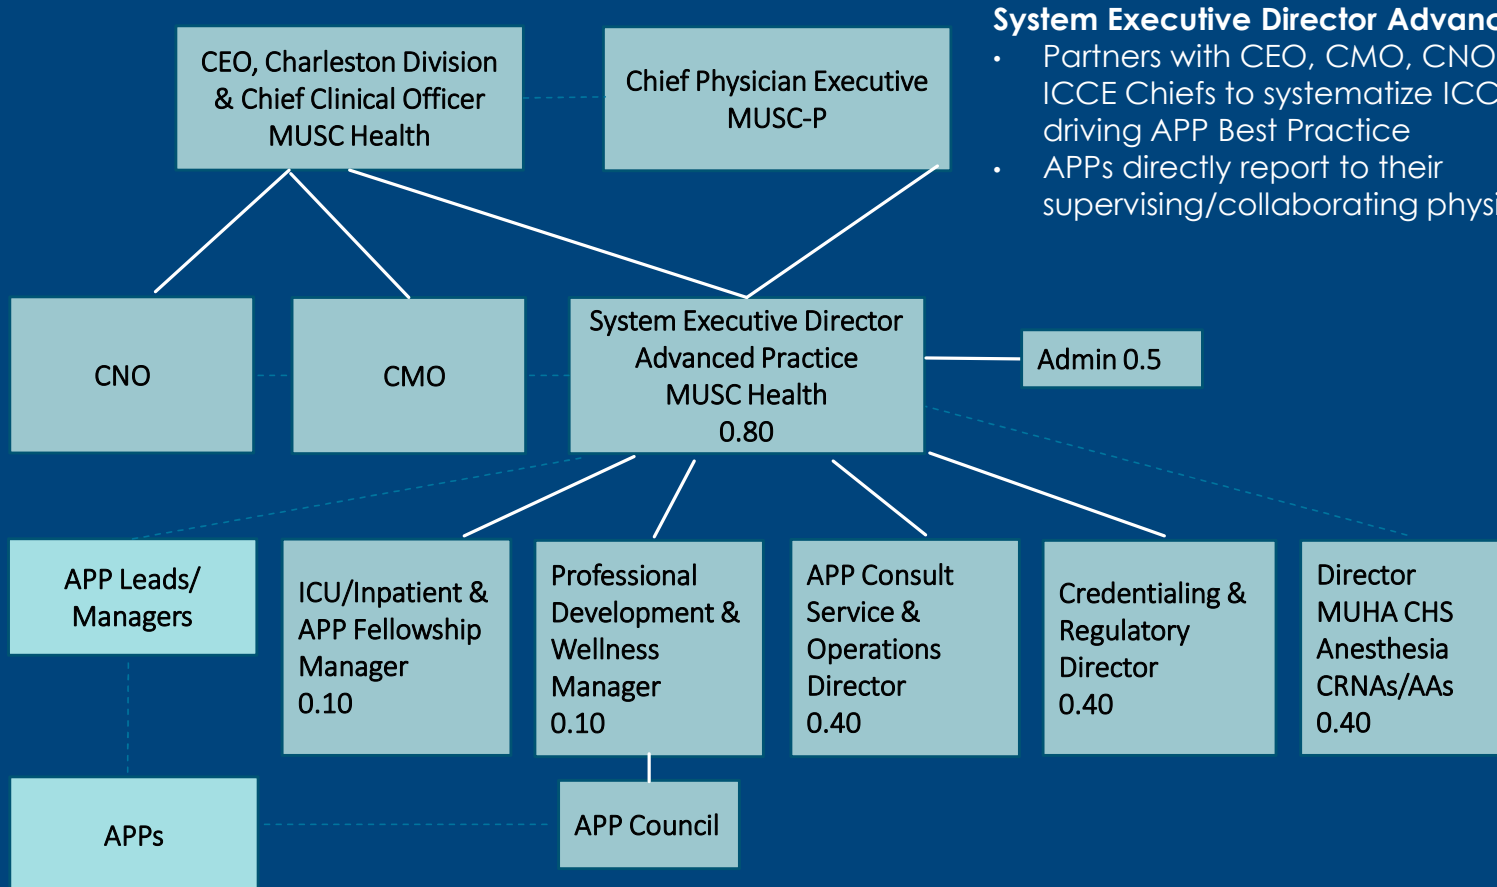

Non-Declaration Statement: I have no relevant relationships with ineligible companies to disclose within the past 24 months.

Educational Objectives

At the conclusion of this session, participants should be able to:

1. Describe a Strategic Planning Framework and Common Tools for Planning.
2. Identify and action plan provider engagement opportunities using A3 problem solving.
3. Develop aligned quality improvement initiatives to reduce length of stay using A3 problem solving.
4. Increase access to care by standardizing minimum work expectations using a policy/procedural method.

ELC Champion:	Megan Fulton, DMSc, PA-C
Process Owner:	Gini Moore, ACNP (Hospitalist-Pee Dee)
Team:	Stephen Dersch, MD; Donna Sullivan (CQO); Amanda Dubose, RN; Dustin Hayes, PA-C (ED-Pee Dee)

BACKGROUND	Sepsis is the leading cause of death in U.S. hospitals. Early identification and treatment of sepsis improves patient outcomes, decreases risk of mortality, and contributes to a decreased length of stay.	PLAN
-------------------	---	------

CURRENT CONDITION	Inpatients admitted to Hospital Medicine (HM), identification of sepsis is dependent upon the provider admitting the patient with the sepsis bundle.	PLAN
--------------------------	--	------

ANALYSIS	The identification of sepsis patients and the initiation of sepsis bundles is dependent upon the provider admitting the patient. Currently there is no consistent order set used to guide the care of a patient presenting with sepsis in the Pee Dee division. This leads to missed repeat lactates, insufficient boluses, and other elements of the sepsis bundle being incorrectly timed or not performed at all.	PLAN
-----------------	--	------

GOALS	<ol style="list-style-type: none"> 1. Increased compliance for sepsis bundle (Goal 80%) 2. Implementation of uniform documentation tool for sepsis across HM and ED 3. Decreased iLOS for patients in MS DRGs 870-872 	PLAN
--------------	--	------

FUTURE CONDITION	Future State Metrics	DO
-------------------------	----------------------	----

Monthly Sepsis compliance percentage				
Index Length of Stay for patients in DRGs 870-872 (Sepsis)				
ACTION PLAN				
	Who	When	Status	
Partner with ED APP Lead to identify current state of sepsis documentation and define sepsis order set.	Moore and Hayes	9/15	✓	DO
Red-cap pre-education survey				
Develop education materials with a deep dive into past sepsis bundle failures. Provide training to Physicians and APPs.	Moore	9/21	✓	
Post-education assessments, Reinforcement of SEP-1 education, Incorporate sepsis into the Orientation materials	Moore	11/1	✓	
Monthly and Quarterly analysis	Moore	Ongoing	Q1/Q2 ✓	

EVALUATION			
Metrics	Baseline	Target	Q4 Outcome
Monthly SEP-1 performance by facility	76.33	80%	
iLOS for patients in Sepsis MS-DRG 870	1.17	1.07	
iLOS for patients in Sepsis MS-DRG 871	2.01	1.07	
iLOS for patients in Sepsis MS-DRG 872	1.17	1.07

A3 Planning

Work Expectations

"Productivity is never an accident. It is always the result of a commitment to excellence, intelligent planning, and focused effort." –Paul J. Meyer

Internal Analysis: Compensation and Workforce Expectations

Concerns

Concerns are identified through the application of an algorithm that considers performance score, Percent (%) Unfavorable, and negative difference from a designated National Benchmark.

	Score	vs. Nat'l Healthcare Avg (Employee) 2023	Responses
1 My pay is fair compared to other healthcare employers in this area.	2.27	-0.96	306

External and Industry Analysis: Compensation Trends

Emerging APP Compensation Trends

Reimbursement changes, increasing labor costs and provider supply and demand challenges are escalating the pace of change for APPs

APP Compensation Design Trends

- **Alignment of compensation models** across the system to minimize the impact of internal competition and turnover
- Recognition of **APP compensation becoming more physician-like** but continuing to maintain some staff compensation practices and differentiation from physician pay
- Planning for the introduction of incentive compensation models
 - Assessing and defining standard work expectations
 - Evaluating physician quality metrics that may be applicable to APPs
- Increased **pressure to remain market competitive** resulting in annual (or more frequent) market reviews, narrower salary ranges and quicker time to range median and max
- Development of **multiple compensation plans** to account for differences in role in the care model, work effort expectations

Copyright © 2024 by SullivanCotter

Strategy Formation: Goals

APP Compensation Design

Project Goals

Project Goals

Governance ✓

- Design an APP governance framework that allows a unified approach to developing compensation principles and standards but allows for intentional flexibility in the unique markets that MUSC serves
- Develop a contemporary APP compensation philosophy and strategy that is aligned with MUSC's physician compensation strategy and organizational goals

Compensation Design

- Refine and standardize minimum work expectations and pay practices for APPs by role across the system ✓
- Develop a progressive base compensation program for APPs in the Charleston market ✓
- Create financial modeling of proposed base compensation recommendations for the Charleston market ✓

Outcomes

- Enhanced ability to **recruit, engage and retain** highly qualified providers both locally and nationally and position MUSC as an employer of choice
- Improved **equity** amongst APP compensation plans
- Enhanced **alignment** between APP and physician compensation plans
- Maintain **market competitiveness** with a greater ability to adapt to market conditions and financial sustainability
- Improved **consistency** around the **minimum work expectations** of APPs

Strategy Formation: Objectives

Minimum Work Expectations	
Examples	
Outpatient MWE	Inpatient MWE
Templated patient-facing hours	Shift requirements
Templated sessions	Weekend, holiday, and/or night shift coverage
Minimum patient visits	Minimum patient encounters
Chart closure within a determined time-frame	Notes signed within a determined time-frame
Both Settings	
Meeting attendance	
Credentialing requirements	
Annual training requirements	
Call shifts	
wRVUs	

Implementation (Policy): Outpatient Work Expectations Example

Outpatient Weekly Patient Facing Hours

Document and communicate outpatient minimum patient-facing hours by FTE to ensure transparency

The example below assumes that 90% of an outpatient APP's work is spent on patient-facing activities. 10% is allocated to non-patient time. Examples of both patient-facing activities and non-patient facing activities should be listed as well.

Outpatient FTE	Minimum Total Hours	Minimum Patient Facing Hours	Non-Patient Facing Hours
1.0	40	36	4
0.9	36	33	3
0.8	32	29	3
0.7	28	25	3
0.6	24	22	2
0.5	20	18	2
0.4	16	14	2
0.3	12	11	1

Implementation (Policy): MUSC Inpatient Work Expectations

Current IP Minimum Work Standards

ICU	Coverage	Minimum Shifts in a 4wk Block	Minimum Shift Duration	Nights, Weekends, Holidays Included?	Notes
NICU	24/7	14	12 hours	Yes	
PICU					
PCICU					
MSICU		13	13 hours		
CVICU					
MICU					
STBICU		Nights Only			
Adult ICU Nights Only	>90% Nights				
Weekender		12			Can request 4 wknd shifts off per Q
Emergency Medicine	Coverage	Minimum Hours	Shifts per Quarter / Pay Period	Shift Duration	Nights, Weekends, Holidays Included?
Adult EM	24/7	1720 clinical hr/yr 430 clinical hr/Q	14, 14, 15 per month	10 hours	Yes
Pediatric EM		80 hours every 2 weeks	Alternates bw two 12hr in ED and two 8hr (3-11p) in after hrs UC	12hrs ED 8hrs UC	Yes (every 3rd weekend)
Inpatient Teams	Coverage	Minimum Shifts in a 4wk Block	Minimum Shift Duration	Nights, Weekends, Holidays Included?	Notes
Hospitalist - Day	Day	14	12 hours	Yes	
IP Neurosurgery	24/7	13	13 hours		
IP CT Surgery					
IP CT Surgery	Rotating	6 IP 10 OP	13 hours 9 hours	Yes + M-F only	Rotates between 24/7 coverage alone and OP coverage rotating with 24/7

Take Home Points

1. APP top executive leaders and aspiring leaders will need to lean into developing a 1-3 year strategic planning framework to plan for the long-game.
2. Use your health system's internal survey system to help road-map a strategic plan. Validate the common themes through an external and industry analysis.
3. Use the A3 tool for your project planning to hold your team and other teams accountable to the work. This tool is a living and breathing document to start and end your meetings reviewing.
